Lifeboat Test Water Bag

Lifeboat test water bags are used for evenly distributed load tests. These test water bags come with fill/offload fittings and an automatic relief valve which is activated once the lifeboat bags achieves the desired weight. Lifeboat proof load testing systems have been specifically designed to provide a safe and simple method of applying a test load to life saving appliances.

Easy to store and transport,
Durable and strong,
Easy to fill and discharge,
Repairable,
Equipped with an automatic pressure relief valve
